

How to change your Scratch Account Settings

Steps to change your account settings

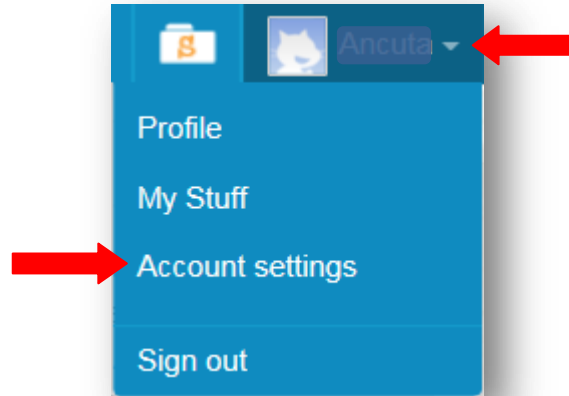

- Click on the Scratch shortcut on the screen or open a browser and type <https://scratch.mit.edu/>
- Click on the top right “Sign In” button

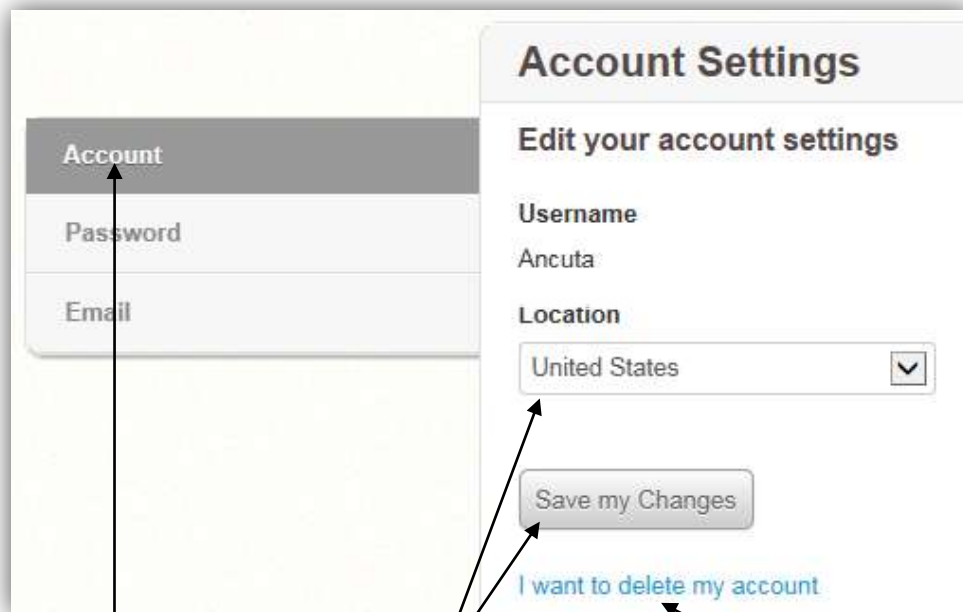

- Type your username and password and click “Sign in” (you find the credentials on the first page in your child “Beginning Scratch Programming” folder)

- After logging in, your username will appear on the top blue menu bar. Please click on the drop-down list next to it and choose “Account settings”

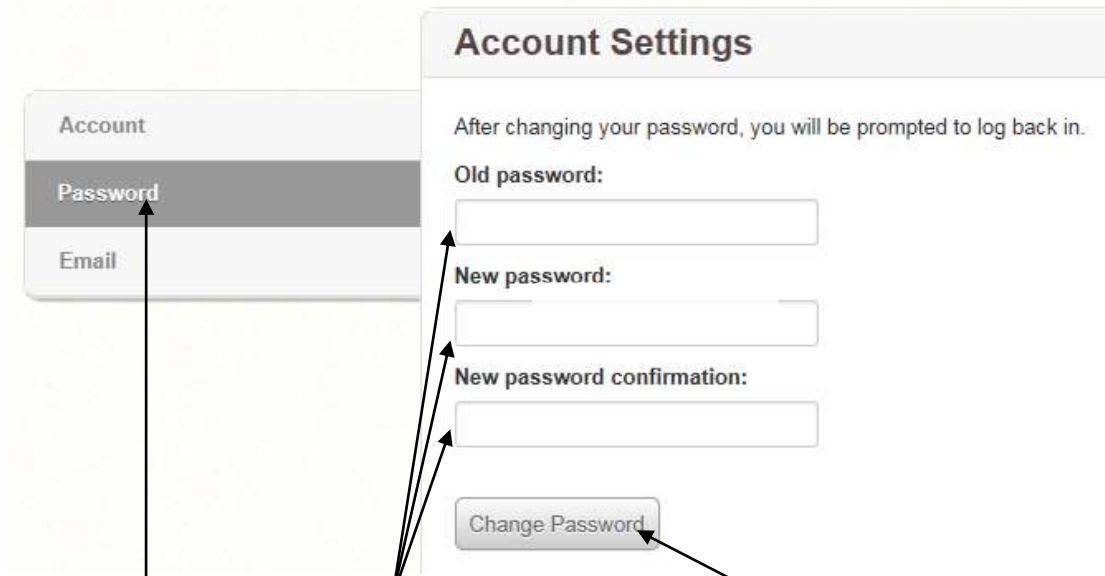

- In the account settings page, you can click on “Account” button, and you can change your location or you can **DELETE** this account

Click on “Account” button Choose a different location and click “Save my Changes” OR **Delete** this account completely

- In the account settings page, you can click on “Password” button, type your old password, then the new one two times and click “Change Password” button

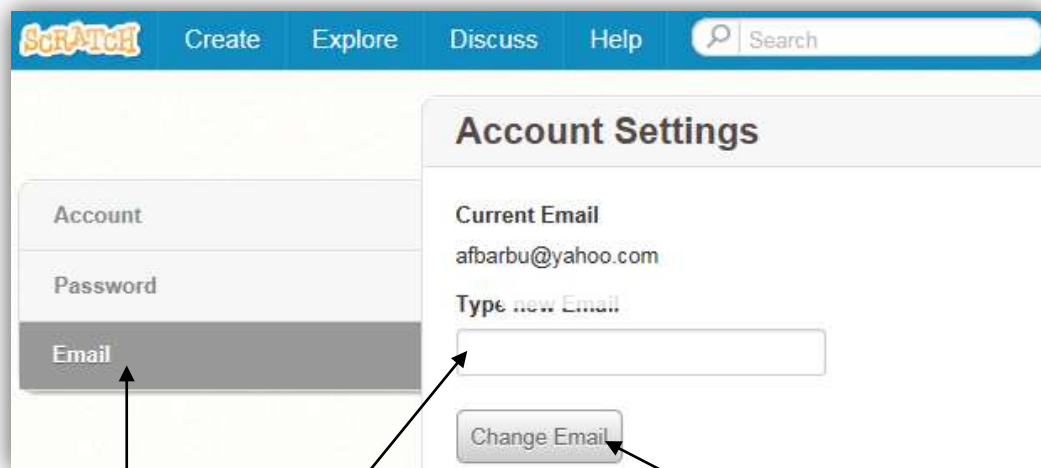

Click on “Password” button

Type your old email address
then type your new password

Click on “Change Email” button

- In the account settings page, you can click on “Email” button, type your email address and click “Change Email” button

Click on “Email” button

Type your email address

Click on “Change Email” button
